Clever Single Sign-On (SSO)
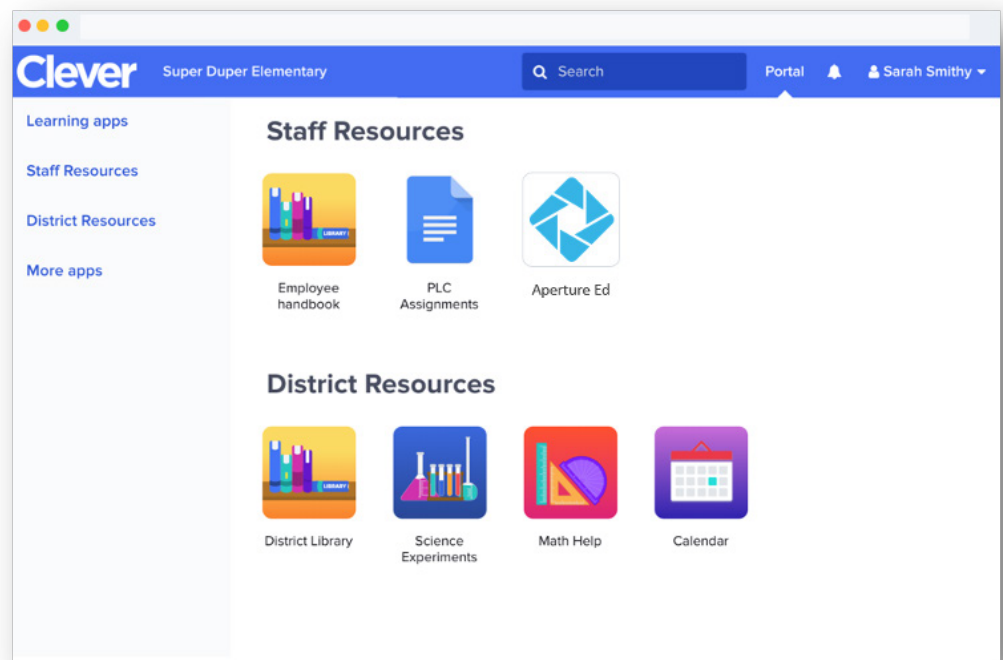

Your existing district Clever login can unlock the Aperture System on any device for students, teachers, and staff.

Steps to Login:

1. Login to Clever using your existing district login.

2. Click on the Aperture Ed app.

3. Land in the Aperture System, fully authenticated.

Aperture Ed: App for educators and administrators

Aperture Ed Student: App for students using the Aperture Student Portal

Setup takes approximately one week and ideally should be completed at the same time as the Student app integration if you use the Aperture Student Portal. Reach out to your Partnerships or Customer Success Team member to ask about if you're eligible for a Clever integration.

Note: Educators and students will need to be already rostered in the Aperture System to be able to login through Clever.
